

## INDOOR TWISTED PAIR CABLES

### 7 S/FTP

1. Conductor
2. AL/Mylar
3. Sheath
4. Rip-cord
5. Braid

Cat. No.: SEC7SFTP

SecurityNET installation twisted cable is intended to connect between distribution point of multimedia signals and user's connectors. SFTP twisted cable (shielded) is perfectly suited for installations in computer networks, phone networks, CCTV systems, etc., which may be exposed to electromagnetic disturbance. Screen application minimizes interference that may occur when the cables will put in the same pathway with other power cable. It has LSZH outer coating. The cable meets the requirements of structured cabling: ISO / IEC 11801, EIA/TIA 568-C.2, EN 50173.

- for indoor use
- high-quality of the workmanship (copper)
- tested (measurement performed on the distance of 90 meters with Fluke Networks DSX-5000 measure)
- meets requirements of cat. 7 S/FTP
- also available in versions: 5e U/UTP, 5e F/UTP, 6 U/UTP, 6 F/UTP, 6A U/FTP, 7A S/FTP

#### TECHNICAL DATA:

|                                     |   |                                  |                     |
|-------------------------------------|---|----------------------------------|---------------------|
| construction:                       | 4x2                                     | compression attenuation (rated): | 80 dB               |
| conductor core:                     | 0,565 mm                                | operating temperature:           | from -20°C to +70°C |
| execution core:                     | copper wire [Cu]                        | installation temperature:        | from -5°C to +70°C  |
| insulation core:                    | PE 1,33 mm                              | mutual capacitance:              | 45 pF/m             |
| screen:                             | aluminium foil (individual pairs) braid | bendig radius:                   | 8 x diameter        |
| nominal diameter:                   | 7,6 mm LSZH                             | NVP:                             | 79 %                |
| characteristic impedance 1-600 MHz: | 100 Ω                                   | color:                           | RAL 2003            |
| max. resistance 1-600 MHz:          | 9,38 Ω/100m                             | CPR class:                       | Eca                 |

| Transmission frequency | 1  | 10   | 16   | 20   | 31,25 | 62,5 | 100  | 200 | 300  | 600  |
